

My book titled; ~ The Abundant and Victorious 'Resurrected Life of Christ's Disciple' ~ will be used for this class and will be provided to you for your keeping.

This discipleship class is for everyone who is born again, who are 15 years of age and up, who hunger/thirst for more, who are ready to be stirred/challenged, who desire to dig deeper – all to progress in their spiritual journey from whatever place that presently is, unto further/greater maturity.

This discipleship class gives individuals the tools; to help equip them for going through life victoriously, to free/deliver them from their old life, and to free/deliver them from the effects and the influences that come from their previous life. Each and all of which results in them living an abundant life – a life that has greater freedom and ability to move-on and to experience; the reality, the transforming effect, the grandeur of God's indwelling presence...and so...being filled with His fullness which has been divinely provided for them through Christ Jesus. From that, also be enabled to then go forth in making and equipping new disciples.

The book material used consists of 16 chapters whose contents progressively build unto each other and requires 22 to 24 two (2) hour classes to completely work through it. Its study and proper application require that the whole of it is needed to have its complete, its fruitful and intended effects - meaning that; one needs all of it to properly apply, properly experience, and so live-out the end product which is – the resurrected life of Christ's disciple.

Throughout these classes there is freedom and liberty to take as much time as is needed, and therefore, provides many opportunities to; ask questions, interact, share, and support one another; all happening in a loving, caring, and respectful environment.

This discipleship class is on Tuesdays from 7 to 9 pm and will take from Jan. 9<sup>th</sup> to approximately the middle of June to thoroughly cover all the material.

Should you have any questions or need more details, please feel free to contact me.
